Gender and urban housing in Mafeteng District: life experiences of Basotho women tenants

Victor Ngonidzashe Muzvidziwa

Abstract
This report on women tenants in Mafeteng District, Lesotho's second largest town builds upon the past findings of the Gender Research on Urbanisation, Planning, Housing and Everyday Life (GRUPHEL) researchers-phases I and II. The study sought to investigate women tenants' housing circumstances, as well as their perceptions, hopes, frustrations and survival strategies.
